

## ***Hot Zone Log, Personal HazMat Record***

First Edition

**Author:** LTC Stanley E. Toy, Army National Guard

**ISBN #:** 1401872298

©2005 Publish Date: 12/10/2004

**Binding:** Saddle Stitch

**Pages:** 96

**Publisher:** Thomson Delmar Learning

### **Description:**

For the first time, HazMat responders have a book that will effectively track exposure to hot zones by recording medical monitoring of vital signs both pre- and post-operations, as well as time “on air” and other duties assigned in the hot zone. This pocket-sized personal log enables individuals to maintain a historical record of personal performance following the completion of training events to actual HazMat incidents. It is ideal for HazMat technicians and trained personnel who respond to and operate in contaminated environments, especially where Level-A or Level-B Personal Protective Equipment (PPE) with Self-Contained Breathing Apparatus (SCBA) is required. “Personal Data Sheets,” a cornerstone of this unique resource, allow individuals to quickly record important information regarding their actions while operating in the hot zone.

### **Product Benefits:**

- created in response to requests from professionals in the field and around the country
- contributes to the overall health and safety of dedicated HazMat professionals whose job it is to mitigate potential environmental and health hazards
- a "Personal Training Record" provides individuals with the ability to quickly reference recently completed course work and relevant materials
- makes a valuable addition to HazMat operating practices within fire departments, bomb detection agencies, civil support teams, the military and emergency responders at federal, state and local levels
- complements organizational health and safety programs as prescribed by OSHA, as well as risk management programs nationwide

### **Table of Contents:**

Forward. Personal Information. OSHA Safety Standards and Practices. Skills and Training Guidelines. Personal Training Record. HAZMAT Site Occupation Template. ICS Organization and Coordination. Risk Management Considerations. Personal Protective Clothing (PPE). Hot-Zone Hand and Arm Signals. Medical Monitoring. Hot-Zone Emergency Procedures. Personal Data Sheet. HAZMAT Terms and Definitions.
