

ALLEGRO
INDUSTRIES

Complete AC Axial Blower Ventilation System 162-14631 115V

High Performance and Durability

Make your confined space applications easier with equipment built to the highest standards.

- Provides lightweight portability with the highest output available
- 1/3 HP motor, requires 3A/115V wiring
- System includes: blower, 6' and 15' of ducting with storage bag, storage rack, Saddle Vent®, 90° elbow, and universal mount
- Free Air: 1275 CFM
- One 90° Bend: 661 CFM
- Two 90° Bends: 582 CFM

CSA approved.

ALLEGRO
INDUSTRIES

Complete DC Axial Blower Ventilation System 162-14632 12V

High Performance and Durability

Make your confined space applications easier with equipment built to the highest standards.

- Provides lightweight portability with the highest output available
- 1/4 HP motor, requires 13A/12V wiring
- System includes: blower, 6' and 15' of ducting with storage bag, storage rack, Saddle Vent®, 90° elbow, and universal mount
- Free Air: 1150 CFM
- One 90° Bend: 595 CFM
- Two 90° Bends: 530 CFM

ALLEGRO
INDUSTRIES

Complete Economy Centrifugal Blower Ventilation System

High Performance and Durability

Make your confined space applications easier with equipment built to the highest standards.

- Features durable ABS housing, metal safeguards, and steel fan
- 1/3 HP motor and plastic base. 6A/115V/2.5
- System includes: blower, 6' and 15' of ducting with storage bag, storage rack, Saddle Vent®, 90° elbow, and universal mount
- Free Air: 1066 CFM
- One 90° Bend: 839 CFM
- Two 90° Bends: 745 CFM

ALLEGRO
INDUSTRIES

Complete Standard Centrifugal Blower System

High Performance and Durability

Make your confined space applications easier with equipment built to the highest standards.

- Features durable ABS housing, metal safeguards, and steel fan
- 1/3 HP motor and meta base with feet, for durability. 6A/115V/2.5
- System includes: blower, 6' and 15' of ducting with storage bag, storage rack, Saddle Vent®, 90° elbow, and universal mount
- Free Air: 1066 CFM
- One 90° Bend: 839 CFM
- Two 90° Bends: 745 CFM

ALLEGRO
INDUSTRIES

Complete High Output Centrifugal Blower System

High Performance and Durability

Make your confined space applications easier with equipment built to the highest standards.

- Features durable ABS housing, metal safeguards, and steel fan
- 3/4 HP motor for higher CFM output. 12A/115V/230V
- System includes: blower, 6' and 15' of ducting with storage bag, storage rack, Saddle Vent®, 90° elbow, and universal mount
- Free Air: 1570 CFM
- One 90° Bend: 1100 CFM
- Two 90° Bends: 900 CFM

ALLEGRO
INDUSTRIES

Complete Gasoline-Powered Centrifugal Blower System

High Performance and Durability

Make your confined space applications easier with equipment built to the highest standards.

- Features durable ABS housing, metal safeguards, and steel fan
- 3 1/2 HP gasoline engine with sturdy metal base
- System includes: blower, 6' and 15' of ducting with storage bag, storage rack, Saddle Vent®, 90° elbow, and universal mount
- Free Air: 2000-3000 CFM
- One 90° Bend: 1500-2500 CFM
- Two 90° Bends: 1350-2350 CFM

ALLEGRO
INDUSTRIES

Complete Air Driven Centrifugal Blower System

High Performance and Durability

Make your confined space applications easier with equipment built to the highest standards.

- Features durable ABS housing, metal safeguards, and steel fan
- Requires 30CFM at 40 PSI and features 2-stage filter, regulator, and lubricator
- System includes: blower, 6' and 15' of ducting with storage bag, storage rack, Saddle Vent®, 90° elbow, and universal mount
- Free Air: 1800 CFM
- One 90° Bend: 1350 CFM
- Two 90° Bends: 900 CFM
